## The Answers

LinkedIn Test	
Correct Answer	
1	no
2	yes
3	yes
4	yes
5	no
6	yes
7	yes
8	no
9	no
10	yes
Total	10 points

And a few points about some of the questions.

### Question One

The answer is “no” because even if you do not know someone when you receive a connection request, you should do some checking on the person before accepting. That means you “know” a little bit about those people.

### Question Five

If you want to know how to “disconnect” from a contact, use the Help Center on LinkedIn.

### Question Eight

You can elect to follow someone without necessarily connecting with him or her. Again, if you want to know more, the Help Center is a good place to start.

### Question Nine

On your LinkedIn homepage look at the updates which people have posted. Click on the “share” icon, and put the name of one of your connections in the box that appears. You will see a list of names. Start writing or use @ to mention people.
